Front Teeth

Lower Teeth

■ Stain ■ Stains ■ Crowns ■ Malaligned ■ Receded gums ■ Attrition ■ Inflamed/Red gums
■ Caries ■ Scaling ■ Other

TREATMENT RECOMMENDATIONS:

- **Stains:**

Teeth cleaning and polishing.

- **Crowns:**

If the crown is loose or broken, better get it checked. Teeth coloured caps are the best ones.

- **Malaligned:**

Braces or Clear Aligner

- **Receded gums:**

Gum Surgery.

- **Attrition:**

Filling/ Night Guard.

- **Inflamed/Red gums:**

Scaling.

- **Caries:**

A filling is required to treat the cavity and prevent further decay.

- **Scaling:**

Professional scaling is recommended to remove plaque and tartar.
